

PROFILE

Design engineer working at the intersection of design and code. I design and build fully custom web experiences end to end, from first Figma frame to production build, with an AI-augmented workflow (Cursor, Claude Code) at the core of how I ship.

EXPERIENCE

Freelance Graphic Designer

Aug 2021 - Jul 2023, Remote

Delivered branding and promotional design for clients end-to-end, from creative brief to final assets, balancing multiple projects while maintaining consistent visual quality.

Freelance Web Designer & Developer

Jan 2023 – Present, Remote

Design and build custom websites end-to-end for clients across industries, owning everything from initial sitemap and wireframe to production build, using an AI-augmented workflow (Cursor, Claude Code) to move faster without sacrificing quality.

Web Designer & Developer, Javell Living Group

Jan 2024 – Dec 2025, Remote

Independently built and maintained 3 production WordPress/WooCommerce sites spanning B2C (Javell Furniture, Baba Living) and B2B (Javell Living) business lines, owning product catalog management end-to-end and running SEO audits to improve search visibility across all three sites.

Web Developer, PPI Türkiye & PPI Dunia

Feb 2023 – Feb 2025, Hybrid

Developed Sepetimiz for PPI Türkiye, a secure online marketplace for students to buy/sell goods and services (reducing scam risk from unregulated WhatsApp transactions), and built an LMS platform for PPI Dunia to support export-education learning programs.

LEADERSHIP

Design Lead, Lets Grow (event by PPI Türkiye)

Sep 2024 – Dec 2024, Bursa, Türkiye

Owned the event's visual identity end-to-end as both lead and sole designer, and built the registration landing page from scratch, coordinating closely with the organizing committee to ship every asset on time.

EDUCATION

Political Science & Public Administration

Jul 2022 – Jul 2026, Sivas, Türkiye

Pursuing a degree in Political Science & Public Administration at Sivas Cumhuriyet University while building a parallel career as a design engineer, developing analytical and communication skills that support cross-functional collaboration on design-technical projects.

Full Stack Bootcamp (React.js & Next.js)

Nov 2023 – Mar 2024, Online

Completed an intensive full-stack development bootcamp at Purwadhika Digital Technology School, building the React/Next.js foundation that now underpins a design-to-code workflow.
