EXPERIENCE

Freelance Design Engineer & Frontend Developer

Self-Employed · Remote

Jan 2023 – Present

Partner with clients including Élane Eyewear, CargoUp, Sela Architecture, Harika Spices, Baba Living, and Javell Furniture to design and build production websites end-to-end — translating Figma prototypes into pixel-perfect, animated interfaces with React, Next.js, and TypeScript. Built a scroll-driven landing page using GSAP ScrollTrigger and Lenis smooth-scroll with clip-path reveal animations. Implement headless CMS and WooCommerce integrations, applying on-page SEO and accessibility standards throughout.

Volunteer Web Developer & Designer

PPI Türkiye Indonesian Student Association · Sivas, Turkey

Jan 2023 – Present

Designed and built an e-commerce website serving the Indonesian student community in Turkey, implementing responsive layouts and product/order management systems tailored for volunteer-run organizational needs.

Volunteer Web Developer & Designer

PPI Dunia · Sivas, Turkey / Remote

Jan 2023 – Present

Designed and built a global LMS platform for the worldwide Indonesian student community, developing online learning and auto-assessment management systems with dashboards tailored for easy administration.

PROJECTS

byhari — Personal Portfolio

Self-Directed

2026

Designed and built a Next.js/TypeScript portfolio with a Sanity CMS content layer supporting polymorphic media. Engineered a full motion system with GSAP — staggered preloader, split-text reveals, and choreographed page transitions — under an editorial, minimal-grid art direction.

Finance App Design System

Self-Directed · Figma

2026

Built a reusable button component library using component sets and variant properties, Phosphor Icons via instance swap, and Figma Variables for radius scaling on a Tailwind/shadcn-based scale.
